Interlocking Systems Co.
Box 1546
Poughkeepsie, New York

Gentlemen:

We have had several requests for Engineering bulletins and publication responses from some of your employees. I have made several attempts to locate your place of business while in the Poughkeepsie area, but have not found you listed.

I am the New York State factory sales manager and would be interested in stopping in and going over our line with your engineering people. I make the trip every third week which would put me in Poughkeepsie the first week in December.

If you find this to fit in with the availability of any of your personel, you may reach me per the attached card.

JLA/ja

Very truly yours,

Pete Atwater
Regional sales manager
